Term 2, Week 4 Monday May 20th, 2019

Orama Public School provides a stimulating, challenging, supportive and professional environment to learn and work in.

Teaching and Learning at its best

Every time that I walk into classrooms at Orama Public School I am amazed. Just last week, the high quality discussions that were present in LS2 was outstanding. Leah was leading the students through a discovery activity with magnets. Students were using words and phrases such as 'conducting', 'thermo', and 'absorb'. I have such an enjoyable experience when I am treated to time in this classroom. We have amazing students and teachers in our school.

Sahara and May testing the materials to assess if they are metallic.

Parent Workshops

I am planning some parent workshops towards the end of term. I am proposing a Friday afternoon. One workshop will be on Reading and Writing and the other on Maths. If you are interested, please drop us an email or a call so we have an idea of potential numbers.

Values Lessons

I conduct weekly lessons with LS1 and LS2 students on our student identified values. The lesson last week on respect had a theme around self-respect. My message for the students has been around the story they are writing about themselves based on their thoughts and actions and if this is a story they can be proud of.

Bus Travel

I have been in close contact with the Chrysalis' Principal and Natureland Bus Services (the town bus). We are planning a meeting to discuss bus behaviour but in the meantime I ask parents to support the bus drivers and set high expectations of their child's behaviour. Being a school bus driver on Waterfall Way and Darkwood Road is no mean feat.

I will be on leave next week. Veda Crossley will be the teacher in LS2 Monday-Wednesday, in my absence.

Its high energy and action packed and transports the audience on a high speed journey of mad comic events. This show is not to be missed. See it only at the Bellinghen Show.
